

CLOUD-BASED DISTANCE LEARNING FOR CLINICAL EDUCATION

Maestro Evolve

Powered by unparalleled physiology engine, Maestro Evolve offers the most realistic, adaptive and customized distance learning experience available to help prepare clinicians to manage patients.

REALISTIC SIMULATION THAT COMES TO YOU

- ✓ **Embody Virtual Patient**
Our virtual patient with the most advanced physiology available today
- ✓ **Virtual Equipment**
Simulated medical equipment that displays real-time medical signs and signals Preprogrammed Simulated
- ✓ **Clinical Experiences (SCEs)**
A library of high quality SCEs developed based on current standards and best practices

DISTANCE LEARNING CAPABILITIES WITH MAESTRO EVOLVE

Access

Your simulator, equipment, clinical scenarios and assessment tools on one platform

Engage

Learners with facilitator-led group learning experiences that emulate on-premises, simulator-based experiences

Invest

In a distance learning platform with predictable costs that will scale and grow with your education and training needs

Configure

Limitless base patients, from healthy to severely ill, and observe as the physiology responds automatically to interventions while you focus on teaching

Maestro Evolve is a subscription-based virtual learning platform.
